

Dear Gemini Families,

I am so thrilled to be a part of the Gemini family as your new assistant principal! I have been wanting to be an educator since I was 8 years old. I now have the pleasure to get to support and empower our Jetstar teachers and staff to achieve social, emotional and academic success in all of our Jetstars students.

My educational journey spans 10 years. During this time, I was a first and second grade teacher, Multi-Tier Systems of Support (MTSS) Coach and then a district program specialist for Elementary ELA and Math writing district resources and supporting coaches and teachers throughout the county. Along the way, I have met so many amazing individuals who supported and coached me up to the leader I am today for this amazing community. I am a lifelong learner who loves to continue to grow myself by reading, listening to podcasts and having conversations with everyone around me.

Students are the number one reason why I am here. They are the reason why I get up every morning and can't wait to get to the school. I believe that building relationships is key to movement and innovation of any team. I can't wait to serve alongside Mrs. Julian and the teachers and staff of Gemini Elementary to prepare our students for tomorrow's launch to success.

Best Regards,

*Christine Rosado*
