"BPS's mission is to serve students with excellence as the standard."

Message from the Principal...

Your child's safety and academic performance are our top priorities at Croton Elementary. Together, we can help every child succeed and reach his or her fullest potential. We need your support! Please help us by getting your child to school on time and ready to learn. Academic time is important, so please arrange outside activities and appointments around the school day to eliminate missing crucial instructional time. The most valuable thing you can do to assist your child's growth is to play an active role in your child's education by keeping informed, monitoring homework, and communicating with your child's teacher. We look forward to a wonderful school year following our mission - Empower every student to succeed!

Annual Asbestos Notification

Brevard Public Schools' records indicate that no asbestos removal activities have taken place at Croton Elementary School during the past year (July 1, 2020 to June 30, 2021).

Background Information:

The EPA Asbestos Hazard Emergency Response Act (AHERA) of 1986 required an asbestos inspection of each school facility nationwide. This inspection was completed in 1988. The scope of the survey included sampling building materials that might contain asbestos, assessing the condition of materials, performing laboratory analysis of each sample, and writing a comprehensive report called an *Asbestos Management Plan*.
