- The Satellite Academy of Fine Arts has seven areas of focus: instrumental music, vocal music, theater, visual art, digital media, web development & design, and technical design. The three CTE SAFA programs provides opportunities for students to earn industry certification that can be used for employment or post-secondary educational opportunities.
- The program provides a relevant and rigorous curriculum to prepare students for the 21st-century arts community workplace as well as post-secondary opportunities. Through integration, students see relativity and form connections between art, music, literature, history, and more.
- Enrollment in the Satellite Academy of Fine Arts is based on student and parent completion of the application and an audition/interview. Out-of-Zone students will additionally need placement through the Educational Program Opportunities, which is a lottery-based system.
- Entry based on the EPO SAFA Program Application requires a 3-4 year commitment and is open to rising 9th and 10th grade students only if **not offered** at their zoned school of attendance.
