

# Brevard Public Schools

**REA XIUM**  
School Bus

## Dear Parents, Guardians, & Families:

We understand how important it is for you to have peace of mind while your children are onboard Brevard Public Schools' transportation.

School days can be stressful. Getting ready for work, getting children ready for school, making sure they get to the school bus on time, and wondering when and where they are boarding and exiting the bus.

Families put their children's safety first, and so does BPS and its partners. That is why the school district has partnered with ReaXium, a Florida technology integrator, to bring families peace of mind. When it comes to student safety, it all begins on the school bus trip to school. Our commitment is to keep the yellow school bus the safest ride for your children!

ReaXium provides the district the best tools to monitor their fleet with ease.

## How do we make this happen?

This school year, Brevard Public Schools buses will be outfitted with a computer tablet to guide drivers during the trip and alert them to the correct students to load or unload at each stop.

When the bus arrives at a stop or at a school, students will "check-in" or "check-out" at a tablet with their district-issued bus badge to ensure they are registered.

**Families need to make sure their children have their badges to ride the school bus each day.**

With their bus badge, riders will be able to easily check-in and out when boarding and leaving the bus. Each school will have access to their particular students with real-time updates through the ReaXium Ridership Solution in an effort to provide the best service to families and students.
